**Oggetto: Recognition status of EUI Master in Transnational Governance.**

With reference to your request regarding the recognition of the Master in Transnational Governance (MTnG) at the European University Institute (EUI), we are pleased to issue the following confirmation:

In light of the positive accreditation of the Master's program by the Accreditation Organization of the Netherlands and Flanders (NVAO) for a period of six years, and considering the elements of the two-year academic program totaling 120 ECTS credits, it is confirmed that the Master in Transnational Governance awarded by the European University Institute - EUI meets all the requirements for admission to Italian recognition procedures and for evaluation by the various competent authorities responsible for such procedures as an academic qualification comparable in level to a Laurea Magistrale degree.

We confirm that the mentioned degree is considered as a second-cycle final qualification, which allows access to third-cycle courses in Italy, according to the assessment carried out by individual higher education institutions as provided for in Article 2 of Law 148/2002. This qualification is comparable in level to a Laurea Magistrale and allows access to third-cycle courses.

Kind regards,

Il Direttore Generale  
Dott. Gianluigi Consoli
