A INTRODUCTION

1 Preamble

The European University Institute (EUI) is a postgraduate and post-doctoral research institute in the field of social sciences and humanities, established by a [Convention](#) dated 19 April 1972, ratified by the Member States of the European Community, with the aim of providing advanced academic training for doctoral researchers and of promoting research at the highest levels. The Convention setting up the EUI includes the “Protocol on the Privileges and Immunities of the EUI”.

The EUI Community has approximately 1,300 members. Researchers, academic and administrative staff are for the most part – though not exclusively – citizens of the Member States.

The EUI's headquarters are at the Badia Fiesolana, Via dei Roccettini 9 in San Domenico di Fiesole (near Florence, Italy). For more information, please see the EUI's official website at <https://www.eui.eu/en/home>.

The mission of the Library is to provide excellent collections and information tools, through high quality services in the disciplines of social science and humanities, with a particular emphasis on Europe as its natural focus, and as a background for a wider international approach.

The EUI Library, which is the authorising officer, is looking for a supplier who can meet the expectations and needs of the Library with respect to serials and electronic resources delivery and services and who can provide a high-quality service combined with an economically interesting offer.

This Tender is for the supply of academic journals in print and electronic format, databases and other electronic resources covering the following subject areas, languages and types of publications:

- approximately 1,000 academic titles, covering the subject areas of Economics, Law, History and Civilization, and Political and Social Sciences, both in print and electronic,
- languages: English, French, German, Italian, Spanish, Portuguese, Dutch and others,
- published commercially, generally excluding government and international/agency publications, and ‘grey’ publications,
- approximately 30 databases and other electronic resources.

Analysis of the 2021 expenditure indicates that the EUI Library has spent approximately €440,000 for journals which are subject to this tender Lot 1. Expenditure for databases and other electronic resources included in this tender for Lot 2 has been approximately €110,000.

It must be stressed that whilst the figures above are genuinely believed to be accurate, the total number of periodicals, databases and other electronic resources subject to tender, as well as the future appropriations cannot be guaranteed and this data is thus provided as an indication.

The tender will result in a multiple framework contract in cascade, divided into Lots.

A tenderer may apply for one or more lots, according to the specifications in *Section F*. Specifications must be applied to every lot.

When submitting the tender, the economic offer must be presented separately from all other information. When preparing information relating to price, it must be clear to which Lot it refers.

The terms used in these specifications are defined in *Section E* of this document.

2 Technical offer information

Suppliers must answer all questions on the Technical Offer form in *Annex II – A*.

3 Economic offer information

3.1 Base for price Lot 1

Suppliers must fill out the form corresponding to Annex 5 according to the Specifications required (*Section C*).

Suppliers are requested to offer a price based on the "publisher's list price" (*See Section E - Terminology*).

The supplier must define a percentage of the list price they will charge the EUI Library - for example, an offer at "100%" means the EUI Library will pay the publisher's list price. An offer of "105%" means the supplier will apply a 5% commission on the list price of the supplied subscriptions. This percentage rate is for an all-inclusive price - no extra charges for handling, delivery etc. will be accepted.

The Library subscribes to several publishers' journal packages, which are negotiated through consortial agreements. These journal packages are excluded from this tender. During the execution of the contract it may happen that some additional packages will be excluded from the contract for joining national consortial agreements. Suppliers therefore must submit two distinct Economic offers (*option A* and *option B*) based on the total amount.

The Library provides a separate list of subscribed journal packages in *Section H*.

3.2 Base for price Lot 2

Suppliers must fill out the form corresponding to Annex 5 according to the Specifications required (*Section C*).

Suppliers are requested to offer a price based on site-wide institutional access via IP for a Full-time Equivalent (FTE) of 1,300.

In the event that a Supplier does not provide an offer for all databases as listed in *Annex II – B*, the awarding will be done only as applicable to those titles offered by all Suppliers and the remaining titles will be awarded in cascade.

A minimum supply of 70% of all databases listed is required.

4 Exclusion, selection and award criteria

4.1 Exclusion criteria

Tenderers shall not be in any of the situations that are grounds for exclusion as listed in *Annex II – C: Declaration on Honour*.

4.2 Selection criteria

The Library needs an experienced supplier focused on the high quality of the service. In order to be eligible for the tender procedure, companies must possess all the following requirements:

- A minimum of five years in business. Please provide evidence that your company has existed for at least five years.
- Declaration that, over the previous three years (2019-2020-2021), the company's overall turnover, excluding VAT, was not lower than €500,000 (five hundred thousand) per year.
- Provide evidence of having obtained the ISO 9001 certificate.
- Provide evidence of at least five-years' experience in dealing with international academic and research libraries.
- Proficiency in English of your customer service staff dealing with this contract is essential. Please provide evidence of this (certificates, stated experience, etc.).

4.3 Award criteria

Award criteria take into account both the Technical and Economic Offers submitted. Award criteria are specified in *Section D*.

The Contract will be awarded to the Tenderer submitting the bid that offers the best value for money. The award criteria will be the basis for the ranking of suppliers in the framework contract.

4.4 Requirements for award

The successful tenderer is requested to provide a performance guarantee of 5% of the annual value of Lot 1 and a performance guarantee of 5% of the annual value of Lot 2 before proceeding with the signature of the contract. If the successful tenderer fails to submit its performance guarantee according to the required terms, the EUI shall have the right to withdraw its tender award.

5 The assessment process

5.1 Lots

Offers will be assessed on a lot-by-lot basis (a Supplier may have a high rating for one lot and a lower rating for another Lot). Lots are specified in *Section F*.

5.2 Score

Maximum score is 100, composed in the following way:

Technical offer: Maximum Score 75

Economic offer: Maximum Score 25

See *Section D - Award criteria* for details.

B TECHNICAL SPECIFICATIONS FOR THE SUPPLY OF PERIODICALS, DATABASES AND E-RESOURCES

6 Ordering and supply

6.1 New orders

Orders for new subscriptions may be placed through the Supplier's Online Subscription Management System or by e-mail. Replies to quotation requests or other requests must be provided by the Supplier within one week.

Acknowledgement of order receipt must be sent by the Supplier within two working days.

Orders for new subscriptions must be processed by the Supplier within three working days of receipt.

The Supplier must notify the Library of any queries relating to new orders within five working days.

Orders for new subscriptions marked as urgent must be processed by the Supplier within one working day of receipt.

Confirmation of new orders must be sent to the Library within five working days and must include the information listed below:

- Title (or group of titles in case of a bundle)
- ISSN / eISSN (when applicable)
- Library's purchase order number
- Supplier's subscription number
- Start date and/or volume and issue
- Price
- Discounts
- Handling charges
- For print titles:
 - Type of delivery: direct or consolidated
- For online titles and databases:
 - URL
 - Type of access (IP by default)
 - Online coverage
 - Number of simultaneous users
 - Post-cancellation rights

New orders will be offered to the Supplier who is ranked first in the related Lot. If the first ranked supplier is unable to fulfil the request or does not respond within the indicated time, the order will be sent to the Supplier ranked second. The same rule will be applied in cascade.

IP recognition is always considered the first choice for electronic access mode. When this option is not possible, the Library can evaluate case by case the possibility to set up access via individual logins/passwords. Details will be defined for each title.

6.2 Renewals

All subscriptions should be based on the calendar year (1st January-31st December), regardless of the renewal date with the publisher.

A holding list for all subscriptions must be sent by email and made available on Supplier's online platform no later than 31 May each year, as specified in *Section B 7.3 Bibliographic services and management information*.

The Library will indicate amendments, cancellations and additions on the Supplier's online platform. Otherwise, the subscriptions are automatically renewed.

The Library's Collection Development Policy foresees an increase in database and e-only journals subscriptions. Decisions are based on some of the Library's established criteria such as post-cancellation access offered by the publisher.

The Supplier must accept the Library's renewal instructions until 31 October each year. In special circumstances, the Library reserves the right to postpone renewal.

The Supplier must make renewal payments to publishers in good time to guarantee a regular and continuing supply service.

6.3 Cancellations

The Supplier must accept annual cancellation instructions sent by the Library until 31 October each year. In special circumstances, the Library reserves the right to postpone cancellation informing the Supplier as soon as possible.

6.4 E-journals

[Applicable to Lot 1 only]

The Supplier will notify the Library of any new electronic versions of existing subscriptions and will inform the Library accordingly of the different access options offered by the publisher e.g. IP access and part of e-packages, purchase options, format and pricing.

The Supplier must assist in the process of setting up access of the electronic subscription. This includes supplying the Library with: licensing details (including access options, post-cancellation access), details on start date of online access, the publisher subscription number, name of the online access platform and URL of the new subscription title.

In the case of new electronic subscriptions, the Supplier must assist by keeping track of the online set-up process with the publisher until electronic access has been fully activated and the Library is informed accordingly.

Changes in titles which are taken over by other publishers and modification of online access platforms must be promptly communicated to the Library.

The Supplier must provide ongoing help with troubleshooting on any access problems that may occur with e-journal subscriptions.

6.5 Back-issues

[Applicable to Lot 1 only]

The Supplier, on request, will provide back issues of periodicals (in print or electronic format) against purchase orders, whether or not a current subscription is held by the Library.

The Supplier will provide information on the availability of back issues.

6.6 Database management

[Applicable to Lot 2 only]

For the purpose of this tender, any journal aggregators or any service platform providing access to newspapers and news sources, macro and micro data, bibliographic or legal information are defined as databases.

The Supplier will offer access to databases and other electronic resources when required.

On request, the Supplier shall manage the set-up of database trials. In addition the Supplier will offer support on negotiations of terms and conditions in license agreements with the publisher/provider.

Once a new database or electronic resource is ordered, the Supplier should follow the complete online activation process until access according to the requested purchase option has been accomplished. This includes supplying the Library with: licensing details (such as post-cancellation access), details on start date of online access, the publisher subscription number, name of the online access platform and URL of the new database.

In the case of a new database, the Supplier must assist by keeping track of the online set-up process with the publisher until electronic access has been fully activated and the Library is informed accordingly.

Any change affecting access to the online platforms must be promptly communicated to the Library.

The Supplier must provide ongoing help with any access problems that may occur with the services provided by a certain database.

6.7 Delivery services

[Applicable to Lot 1 only]

Where issues are dispatched directly from publishers, the Supplier will ensure that they are sent to the Library as soon as possible after publication. Receipt by the Library should not be later than four weeks from publication date. Free replacement copies of damaged material should be delivered upon request.

The supplier should provide a consolidation service, which includes direct handling of customs clearance and a system for monitoring deliveries to claim missing or incomplete issues. This service will be compulsory for all titles sent from outside of the European Union at the time of the contract signature as well as for the duration of the contract in case any of the member states exits the EU.

The supplier should use larger shipments as one of the main initiatives to reduce CO2 emissions and transportation costs.

6.8 Claims and troubleshooting

Claims apply to online access problems for databases and unavailable online journal issues as well as non-received print issues.

After submitting a claim, the Library expects immediate notification of receipt of a claim. Replies should be sent by e-mail to a named Library staff member with reference to the

original claim. The Supplier's Subscription Management System should contain updated information about the status of claims.

The Library will send claims from its Integrated Library System in EDI (EDIFACT/X12) format or via the Supplier's platform.

The Supplier will process claims sent by the Library within two working days from receipt.

The Supplier will send publishers' responses to claims to the Library within one working day. In any case the Library expects to be informed within five working days from the receipt of the claim.

Claims marked as *urgent* will be processed and a response given within one working day of receipt.

If claimed issues are unobtainable, there must be a definitive reply within one month from the claim date, informing the Library that the publication is suspended, ceased or that the order is considered cancelled.

There must be no invoicing of titles which are suspended or are not arriving. No information about claims should appear on invoices.

6.9 Invoicing

The Supplier must send electronic invoices in PDF format by e-mail to an exclusive EUI email address or make them available for download on the Supplier's platform. Alternatively, the Supplier must send a print copy via regular post.

In addition, the Supplier should make available for download via ftp, electronic invoices according to the EDI (EDIFACT/X12) format supported by the Integrated Library System. The electronic invoices in EDI (EDIFACT/X12) format must correspond to the original invoice delivered, especially regarding:

- Invoice number and invoice date
- Number of invoiced items
- Total price

The EUI shall make payment within 60 days of receipt of invoice. Invoices for serials (continuations) will be paid after the arrival of the relevant volume.

The currency of payment will be in Euros.

An incorrectly prepared invoice will not be paid until a corrected version has been provided. The incorrect invoice should be cleared by a credit note and a correct invoice should be delivered.

Terms unilaterally included in invoices by the Supplier are not binding on the EUI, even when publishers have applied them to the Supplier.

Invoices should list only subscription orders that are effectively to be paid. Any other information (e.g. on publication, status of the order) should be omitted.

Invoices must always specify:

- The client address and the name of the Library as specified on the purchase order
- Library's purchase order number
- Bibliographic description including title, ISSN / eISSN, frequency and format
- Coverage period of subscriptions or volume/number of the invoiced title
- Subscription online access option (e.g. site-wide)
- The Publisher's list prices for all items in native currency and the total price

- The exchange rate applied
- VAT rate applied and mention of EUI's VAT exemption when applicable
- Supplier subscription number
- Supplier's bank details and VAT number

7 Services

7.1 Quality and Customer service

The EUI is a unique institution created and built on the very idea of promoting diversity and inclusiveness and is committed to promote a culture of shared responsibility and awareness of environmental sustainability.

The Library requires an experienced supplier, who can provide a comprehensive and high quality subscription service. The supplier should have established quality control procedures. The supplier should have well-trained staff whose competencies include a high standard of ethics, efficiency and accountability. Staff members are expected to be up to date with the latest developments and have a good knowledge of customs regulations.

The Supplier will allocate one named Customer Account Manager to take charge of the Library's account. The Supplier shall provide an online management tool, which records important service information, status of subscription orders, outstanding issues and service requests, including all notification history between Supplier and the Library.

Meetings with a representative from the Customer Service team and with a member of the Sales team will be held at the Library's site or online, at intervals of not more than one year.

On request of the Library, the Supplier will provide training sessions on the use of its own platform.

7.2 Communication policy

All communications will be in English, unless mutually agreed otherwise.

Responses to e-mail correspondence will be given within three working days. If no substantive response can be made within this time a holding reply will be sent.

If a holding reply has been sent initially, a follow up message with substantive reply will be made within five working days of the original request.

Responses by e-mail will include the original message from the Library.

7.3 Bibliographic services and management information

The Supplier will provide the Library with secure online access to its Subscription Management System. In particular, this platform should provide complete title information including bibliographic data and details on prices, formats, access options, journal packages, invoices and license information.

The Library should be able to manage via this online platform the entire subscription process, from title selection and ordering to online access activation and checking of delivery status of volumes and claims. An online renewal tool should also be offered on the platform.

The Library requires the possibility to retrieve the following title periodical subsets from the Subscription Management System:

- a holdings list of all active Library's subscriptions
- Library's subscriptions in a particular subject category
- Library's subscriptions listed under a particular Library fund code
- lists of cancelled subscriptions
- lists of all subscriptions from a particular publisher

- lists of titles on order
- list of active subscriptions by format type

The Library requires regular management information reports and service performance data, including expenditure reports. On request and/or in agreement with the Supplier, reports should be sent at regular intervals or on specific dates to the Library or made available via the Subscription Management System.

All reports should include:

- titles
- ISSN/eISSN
- supplier's reference number
- the Library's order number
- subject areas (when necessary)
- current list price (when necessary).

Prompt reports must be sent by e-mail with general information and updates concerning:

- format change
- title change
- frequency change
- publisher change
- issues delayed
- ceased title

Holdings lists (Excel file) must be sent to the Library each year by the end of May or be made available through the Subscription Management System.

The Library is interested in an alerting service on new titles in the relevant subject areas, geographical regions or by language.

The Library is also interested in e-journal and database usage statistics reports compliant with the most up-to-date standards.

7.4 Journal packages

[Applicable to Lot 1 only]

The Library subscribes to several journal packages, some of which are channelled through national consortial agreements. A list of subscribed packages that are part of this tender is available in *Section H*.

Following ongoing negotiations on journal package renewals between the national Italian consortium CRUI and publishers, the Library may decide during the contract not to renew a part of its subscriptions with the Supplier and adhere to a national contract, as stated in the Economic Offer (*Section C 8*).

The Library may ask the Supplier to negotiate transformative Read & Publish agreements with the publishers on their behalf.

7.5 IT requirements

Any service should be compatible with EUI software systems. It must be made clear if a modification is required, or likely to be required, to achieve compatibility with EUI software systems. If necessary, further information on EUI systems can be requested from the Library prior to submitting the offer.

The Library Information System currently in use is Symphony, a product of SirsiDynix.

The Supplier should implement appropriate public standard formats, particularly EDI (EDIFACT/X12).

7.6 Transfer arrangements

The Supplier will assist the Library in the transfer of subscriptions from the previous supplier or publisher/provider. The Supplier will make clear to the publisher, within one month from the start of the contract, that the orders are transferred from another agent or directly from the publisher/provider and are not new subscriptions.

The supplier subscription reference numbers should be provided in order to be uploaded to the Library's automated management system.

7.7 Expiry of contract

The Supplier will assist the Library in transferring subscriptions to another company at the end of the contract or if the contract is terminated early owing to poor performance or liquidation of the company.

The Supplier will take over the claiming of any outstanding issues still awaited from the publisher, which have already been paid.

7.8 Service levels in relation to publisher

The Library understands that some aspects of the service will be beyond the direct control of the Supplier including:

- time taken for publishers to respond to queries
- time taken for publishers to announce bibliographic changes
- time taken for publishers to activate online access
- time taken for publishers to resolve online access issues
- the number of print issues requiring to be claimed from the publishers
- the time taken for print issues to arrive from the publishers

No invoices or renewal notices from publishers should be sent to the Library.

Although no numerical targets have been set for these requirements, the Library will expect the Supplier to work proactively with publishers and seek commitment to meeting required service levels. Where a particular publisher or group of publishers consistently causes the Library problems, the Supplier should provide on request details of the steps they have taken to improve the service given by the publishers.

The Library will monitor the service provided by the Supplier and will notify the Supplier, in writing, of any areas where performance is deemed to be unsatisfactory.

7.9 Contract monitoring

Review meetings between the Library staff and the Supplier will be held at least once every twelve months.

7.10 Defaults and penalties

- Failure to respond to information requests will lead to new orders being diverted elsewhere.
- Failure to deliver as specified may lead to order cancellations.
- Failure to invoice as specified may lead to late or contested payment.

Beyond these 'penalties' which arise from normal operation there is a system of default.

Any failure to deliver as specified, required or agreed, or according to normal business or legal standards, may be regarded as a default.

Defaults may be recorded by the Client. They will be classified as 'minor' or 'major' defaults. Any default not included in 'major' defaults (see below) will be considered as 'minor'.

The main categories of default under this specification are services, facilities, pricing and performance standards according to the Technical Specifications and the Supplier's Technical Offer.

These include:

- Failure to provide online access (See 6.4, 6.6 and 6.8).
- Late delivery or incorrect item received (See 6.7).
- Failure to implement claims procedures as required and described (See 6.8).
- Failure to present invoices as required (See 6.9).
- Communications not up to required standards (See 7.1 and 7.2).
- Pricing/charging not in agreement with the contract.
- Failure to provide customer service (See 7.1).
- Failure to provide service performance data and management information (See 7.3).
- Failure to provide IT services (See 7.5).

Major defaults apply according to the Technical Specifications and the Supplier's Technical Offer.

These include:

- Failure to provide customer service and communications (See 7.1 and 7.2).
- Failure to provide IT services (See 7.5).
- Failure to present invoices (See 6.9).
- Failure to provide online access or deliver a significant proportion of the titles to which the Client subscribes (See 6.4 – 6.8).
- Significant failures on pricing.
- Persistent minor defaults in an area of ordering, supply or service following a performance warning from the Client.

A points system will apply with minor defaults valued at 10 points and major defaults at 50 points.

Following the recording of five minor defaults, or one major default, the Client shall inform the Supplier with a performance warning and indicate areas for improvement.

If a Supplier has accumulated 100 default points in any twelve month period, and these relate to more than 2% of all transactions with the Supplier, or relate to major defaults, the Client may issue a penalty notice sent in writing to the Supplier. The Supplier will be informed in such case beforehand. All invoices relating to transactions from the date of the first recorded default to the last recorded default will have a 1% discount. A credit note must be issued within ten working days of notice by the Client.

If subsequently the total of 200 default points is reached then the discount will be 2.5%, 300 default points 5%, 400 default points 7.5% and so on.

The Client reserves the right to transfer future orders/contracts to alternative suppliers following the award of 200 default points in any twelve-month period. The Client reserves the right to terminate existing contracts without further notice if 300 default points are awarded in any twelve months. In this case the orders will be transferred to the Supplier ranked second. The same rule will be applied in cascade.

C ECONOMIC SPECIFICATION

Pricing policies

The main base of the pricing for Lot 1, used for all material published or routinely distributed, is the **publisher's price**.

For Lot 2 the price should be based on site-wide institutional access via IP for a Full-time Equivalent (FTE) of 1,300.

The pricing formula will be followed in all orders/contracts. However, such a formula represents the maximum acceptable price: lower rates may be offered by the Supplier, if agreed, for specific orders/contracts.

The formula based on fixed percentages of publisher's price will not be reviewed (the publisher's prices themselves may of course change).

8 Economic offer Lot 1

During the contract period, the estimated total annual amount of Lot 1 €440,000 may vary according to new publisher agreements with the national consortium, to which the EUI could adhere.

The tenderer should therefore submit two distinct Economic offers for Lot 1, based on the total amount indicated below for *option A* and *option B*. Both options will be considered for the awarding.

Economic Offer Lot 1 option A

Total amount varying between €300,000 and €440,000

Economic Offer Lot 1 option B

Total amount varying between €80,000 and €299,999

8.1 Pricing formula

State the pricing policy in this format for both *option A* and *option B*.

Publishers list price @ xxx%

(For example: "Publishers list price@95%", or "Publishers list price@105%")

The rate xxx% should take into account all discounts and all costs, up to and including online access activation/delivery to the EUI. This rate will apply to all orders and contracts. Offers submitted in other formats will not be accepted.

9 Economic offer Lot 2

For all resources provided, a price should be indicated, according to the form included in *Annex II – B*. The service charge should be the same for all databases and remain the same during the entire contract period. A minimum supply of 70% of all databases listed is required.

9.1 Pricing formula

State the pricing policy in this format:

Total price resulting from total prices + service charge as percentage
(For example, Total price: €200,000 + 5% service charge = Total €210,000)

D AWARD CRITERIA

10 Technical offer award criteria for Lot 1 and Lot 2

10.1 Score for technical offer

Maximum score for Lot 1 = 75

Maximum score for Lot 2 = 75

N.B.: Decimal fractions are allowed (e.g. 0.5)

10.2 Technical offer award criteria for Lot 1 and Lot 2

Ordering and supplying (See B 6):	Score 42
Services (See B 7):	Score 33

11 Economic offer award criteria Lot 1

11.1 Score for economic offer

Maximum score = 25

- Maximum score *option A* = 15
- Maximum score *option B* = 10

Price should be offered according to Introduction (*Section A*) and Economic Specification (*Section C*)

Both options will be scored according to the following formula:

Score	=	MinPrice	x	MaxScore
		Price		

Where:

Price = The percentage value of the list price offered by the individual tenderer.

MaxScore = The maximum score assigned.

MinPrice = Lowest percentage value of the price offered in the tendered bids.

N.B. The first three digits after the decimal point will be calculated.

Example:

Economic offer for the assessed tender option A = list price@105%

MinPrice option A = list price@102%

Economic offer for the assessed tender option B = list price@110%

MinPrice option B = list price@108%

MaxScore = 25

Score option A	=	$\frac{102}{105}$	x	15	=	14.57
Score option B	=	$\frac{108}{110}$	x	10	=	9.82
TOTAL	=	Score A + Score B				24.39

12 Economic offer award criteria Lot 2

12.1 Score for economic offer

Maximum score = 25

Price should be offered according to Introduction (*Section A*) and Economic Specification (*Section C*). In the event that a Supplier does not provide an offer for all databases as listed in *Annex II – B*, the awarding will be done only as applicable to those titles offered by all Suppliers and the remaining titles will be awarded in cascade. A minimum supply of 70% of all databases listed is required.

The economic offer will be scored according to the following formula:

Score	=	MinPrice	x	MaxScore
		Price		

Where:

Price = The price offered by the individual tenderer.

MaxScore = The maximum score assigned.

MinPrice = Lowest price offered in the tendered bids.

N.B. The first three digits after the decimal point will be calculated.

Example:

Price offer for the assessed tender = €110,000

MinPrice = €105,000

MaxScore = 25

Score	=	105,000	x	25	=	23.86
		110,000

E TERMINOLOGY

Authorising Officer	refers in practice to the head of service in charge of the launching and awarding of the contract within the limits of the powers of signature available to him/her.
Best value for money	evaluation according to the best quality/price ratio.
Client	(note the capital "C") - Director of the Library of the European University Institute, or an official authorized by the Director. 'Authorized officials' will be identified to Suppliers with a description of their roles.
Contracting authority	refers in practice to the head of service in charge of the launching and awarding of the contract within the limits of the powers of signature available to him/her.
Credit note	a note providing refund, valid against present or future invoices from the Supplier, without restriction. A "credit note" which takes the form of an extension of a specific subscription, or which is valid only for limited purposes, is not normally acceptable.
Database	any journal aggregators or any service platform providing access to newspapers and news sources, macro and micro data, bibliographic or legal information are defined as databases.
EUI	European University Institute.
Integrated Library System	EUI Library Integrated System, Symphony (SirsiDynix).
Journal	a publication in print or non-print form issued in successive parts, usually having numerical or chronological designations and intended to be continued indefinitely which is charged on a pre-paid, usually annual, subscription basis, together with any back issues.
Library (the Library)	the Library of the European University Institute.
Periodical	includes journals and serials.
Publisher's list price	the retail price advertised by the publisher or distributor, or the price printed on, or in, the item, whichever is the lower.
Serial	a publication in print or non-print form issued in successive parts, usually having numerical or chronological designations and intended to be continued indefinitely normally invoiced on arrival of the volume.
Specification	set of requirements related to each Lot and each type of supply.

Supplier

the tenderer to whom the contract has been awarded.

Working days

are Monday-Friday, excluding recognised national public holidays in the country of the Supplier or Client, as relevant to the case. The passing of “one working day” is from the time of initiation on the first day to the same time on the next working day.

F LOTS

Lot 1 Periodicals: journals and serials in print or electronic format

Lot 2 Databases and other electronic resources

N.B.

The publications of the European Union (*Publications Office of the European Union – Luxembourg*) and the Council of Europe (*CoE Publishing - Strasbourg*) are excluded from the tender; government and international/agency publications, and 'grey' publications are generally excluded from the tender.

The Client reserves the right exceptionally to place out-of-print, rare, or particular titles/volumes with a supplier of its choice.

G LIST OF JOURNAL TITLES

List of titles is also available in Excel spreadsheet as separate document in *Annex II D*.
