

Updated to 02/07/2024

**Question n.1**

We can submit our response electronically in place of a physical copy?

**Reply n.1**

According to the [EUI Public Procurement Regulation](#) (PPR), for open procedures like the present procurement procedure, it is not possible for the EUI to accept tenders in electronic format but only in physical copy.

**Question n.2**

Is this procurement procedure open for non-European bidders, or participation is limited for only European entities?

**Reply n.2**

With regard to participation to this procurement procedure, according to Article 3.4 of the [EUI Public Procurement Regulation](#), the EUI can only accept offers from and sign contracts with tenderers from the EU Member States, EEA countries and any other country which has an international agreement with the Union in the field of public procurement as well as from countries which have ratified the [Government Procurement Agreement \("GPA"\)](#).

**Question n.3**

Are there other customizations that are not described in the requirements? if so, will they be discarded or will they be described at a later stage for further estimation?

**Reply n.3**

The current customisations of Cadmus are listed, but their specific functionalities, technical developments and implementation are not specified in full detail. Any customisation must either be transferred to the new updated DSpace or replaced by a comparable or, preferably, more sophisticated solution. Such a solution must be described in the tender proposal. All the proposed solutions are subject to the final acceptance and approval by the EUI team at the implementation stage. (See also Tender requirements for ex. 7.2.2).

**Question n.4**

Can you send a sample of the outputs produced by this custom functionality: "Atmire external module for 'Listings and Reports' <https://www.atmire.com/modules/listings-reports-for-dspace> used for the production of EUI annual reports via the export of and formatting of metadata from Cadmus"?

**Reply n.4**

A sample of a Report is the Annual Report that you find included in this document after the last question Please note that the first two pages are Cover and ToC while the rest is exported into rtf already formatted.

### Question n.5

Are there any workflow/review processes in place in the current repository? if so, are they applied to all collections or are they different for each collection? Can you produce a description of the workflows?

### Reply n.5

No, there are no workflows set up and used currently (any longer). There used to be in the past. At the moment, only the repository managers / DSpace admins (EUI OS team) can perform submissions and publish in Cadmus. We might consider developing such workflows but starting from scratch with the new DSpace. If such a workflow were to be implemented, admins must be able to perform submissions without the edit/review steps applying to them.

### Question n.6

Are the DOIs minted for each deposited/published item, or are there any rules to mint DOIs (e.g.: only for items in specific collections, only for items with specific dc.types, etc.)? if so, can you describe these rules?

### Reply n.6

Currently DOIs are not issued for each item record. The EUI OS team is responsible for issuing DOIs for EUI theses. Other academic units issue DOIs for EUI Reports, Policy Briefs etc. All EUI DOIs are issued until now through EU Office de Publications. EUI theses DOIs are resolved to the Cadmus handle DOIs (eg. <https://hdl.handle.net/1814/76781>), as well as the EUI OA journal EJLS, while other DOIs are resolved to EU Office de Publications eg. <https://cadmus.eui.eu/handle/1814/76757> | <https://op.europa.eu/en/publication-detail/-/publication/fabd9d4b-f22b-11ee-8e14-01aa75ed71a1/language-en>

### Question n.7

Are you planning to use entities (such as Person, Project, Organization Unit, etc.)?

### Reply n.7

Please refer to the tender specifications point 7.2.3 Branding, visual identity and user interface, especially the paragraph on 'Entities landing pages'. Your proposal should enable the EUI team to make an evidence-based decision on which entity to activate/implement.

### Question n.8

Are options admitted in the proposal? They would empower your institution's decisions. For instance:

- a) there could be two ways to achieve a result, one way could be more extensive, another more limited but still satisfactory and more economical: would you be interested to know both options?
- b) there could be additional functionalities that are not mentioned in your requirements but could be interesting for your institution: would you be interested to know them and their cost?

### Reply n.8

- a) YES, we encourage two alternative solutions/scenarios proposed and described.
- b) YES, we encourage to mention additional features/solutions to be proposed and described.

### Question n.9

In accordance with Section 7.2 of the Terms of Reference (Annex I – Tender specifications):

„The Contractor must guarantee high standards of data protection declaring compliance to the EU GDPR, providing details about its compliance with the ISO 27001 standard and other related standards, as well as a strategy to prevent DDoS attacks; all the above shall be described in the technical proposal.”

In view of the above, please confirm whether ISO 27001 certification is required and, if so, to what extent and at what stage of the procurement process?

### Reply n.9

ISO 27001 certification or equivalent is strongly recommended by the EUI Data Protection Officer in order to be compliant with EU GDPR.

However, since it is not listed among the selection criteria included in Article 10 of the Terms of Reference (Annex I – Tender specifications) then your tender will not be rejected if you do not have such certification or equivalent.

If you are in a certification phase, you must indicate in which phase of the certification you are. The EUI recommends that the ISO certification or equivalent is obtained before the signature of the contract.

If you have not initiated a certification process, please refer to the instructions of the tender specification under 7.2.

### Question n.10

In accordance with article II.13 General Conditions For Service Contracts contracting authority has reserved the obligation to pay liquidated damages . **Please confirm that the limit of the Contractor's liability on this account will not exceed 10% of the contract value.**

### Reply n.10

As indicated in Article II.13 - Other special conditions of the Draft Service Contract published at <https://www.eui.eu/en/public/about/procurement/tenders-portal?id=op-eui-lib-2024-002> Article II.13 Liquidated Damages from the General Conditions does not apply to this contract.

### Question n.11

In accordance with article II.14 General Conditions For Service Contracts -Reduction in price **please confirm that the possible price reduction in any case will not exceed 10% of the contract value.**

### Reply n.11

As indicated in Article I.13 - Other special conditions of the Draft Service Contract published at <https://www.eui.eu/en/public/about/procurement/tenders-portal?id=op-eui-lib-2024-002> Article II.14 Reductions in Price from the General Conditions does not apply to this contract.

**With reference to question n.4 please see the Report attached here below:**

**CADMUS**  
EUI REPOSITORY  
CELEBRATING  
**20 YEARS**  
ANNIVERSARY

# EUI ACADEMIC PUBLICATIONS AND DATA 2023

Pre-print version

This 2023 report includes over 1000 EUI research outputs contributions appearing in 2023. These include 67 books, 106 book chapters, 130 theses, 460 journal articles, 92 working papers, 159 research reports, lectures, policy papers, 11 datasets, as well as 37 videos. 70% of the EUI research output 2023 is available in Open Access to everyone worldwide.

Extracted by EUI Library Open Science Office  
from the EUI Research Repository, Cadmus on 14  
February 2024

This *EUI Academic Publications and Data 2023* is a pre-print version of the forthcoming published version, as extracted from Cadmus, the EUI Research Repository on 14 February 2024. The number of publications and statistics will be updated in the forthcoming published version foreseen for late Spring 2024. Cadmus is a service of the [EUI Library](#).

The EUI established its research repository Cadmus in 2003, with the aim to collect and share all the EUI's research outputs. As a gift to Cadmus to [celebrate its 20 years](#) the new temporary logo.
