

**Microeconomics Block III  
Winter 2016**

Andrea Mattozzi

- **Classes:** Wed, Fri 11.00-13.00 VSP1.
- **TA:** Giovanni Andreottola
- **TA Sessions:** TBA
- **Office Hours:** Friday from 14:00 to 16:00.
- **Required Texts:**
  1. Mas-Colell A., Whinston M.D., and Green J.R., 1995, *Microeconomic Theory*, Oxford;
  2. Reny P. and Jehle G., *Advanced Microeconomic Theory*, 2nd edition, Addison Wesley.Lecture Notes will be distributed.
- Recommended extra text: Salanie B., *The Economics of Contracts*, MIT.
- **Course Objectives:** This course introduces you to models of asymmetric information in markets. We cover models of signalling, competitive and monopolistic screening, markets with externalities, public goods, principal-agent models with hidden actions and or hidden information.
- **Course Requirements:** There will be the usual final exam. Problem sets need to be turned in, but will not be graded.

**Subjects and readings**

- Material for first week:
  1. Inefficient market equilibria when there are unobservable private characteristics that are relevant for the competitive prices. MWG-13B.
  2. Adverse selection and markets with signaling; MWG-13C, JR-8.1.
  3. Competitive screening; in labor markets MWG-13D and in insurance markets JR-8.1.
- Material for second week:
  1. Moral hazard and the principal agent problem in insurance and labor markets MWG-14B, JR-8.2.
  2. Monopolistic screening; MWG-14C.
  3. Principal-agent model with hidden information and hidden action; MWG-14D.

- Material for third week:

1. Left-overs from the theory of complete contracts.
2. Mechanism design and applications of revelation principle to monopoly price discrimination and first price auctions. Salanie Ch. 2,3

- Material for fourth week:

1. Social choice, implementation and mechanism design, taking public good provision and collective decision making as main topics.
2. Myerson and Satterthwhite. MWG-23.

- Last week:

1. Cheap Talk: the basic one sender model.
2. Extensions: extensive communication, delegation and contracts, multiple senders, multiple dimensions.
