Seminar room 3 - Badia Fiesolana - 14.00-18.00

The Fernand Braudel Talks aim at presenting to all members of our intellectual community the variety and wealth of research that Fernand Braudel Fellows bring to the HEC department.

The Talks are divided into three sessions, taking place in November, January and March on Thursday afternoons. They are structured in panels discussing broadly defined historiographical agendas in which one or two FB Fellows and three to four junior fellows (Max Weber and Marie Curie) from the HEC Department present their work.

The talks aim at bringing together scholars from different traditions, approaches and periods on the basis of a shared research interest or topic, in order to encourage the discussion and the exchange of ideas.

The Fernand Braudel Fellow will have 30 minutes to present his/her paper, and the rest will have 15-20 minutes.

Discussion will follow.
