Workshop: Geographies of Violence in the Middle East and beyond

Time and Place: **17 April and 20 April 2026**

Given by: **Raffaella Del Sarto**

Administrative Contact: claudia.fanti@eui.eu

Seminar Description and Objectives

This workshop will explore geographies of war, statelessness, camps, counterinsurgencies, borderlands, and colonial and imperial violence in the Middle East. By highlighting symbolic and structural forms, the workshop aims to challenge traditional conceptions of violence, which often undermine distinctions between state and non-state actors while prioritizing violence as a purely physical/material phenomenon.
