

Third term, Academic Year 2025-2026

Workshop: Introduction to Large Language Models for the Social Sciences

Time and Place: **17 April, 20 April, 21 April, and 22 April**

Given by: **Sascha Riaz & Alejandro Lopez**

Administrative Contact: olena.shcherbatiuk@eui.eu

Seminar Description and Objectives

This course equips students with the knowledge and skills to leverage Large Language Models (LLMs) in their research. It covers an introduction to Python, LLM fundamentals, applications like text annotation and building LLM agents, and challenges such as bias and performance evaluation. Lectures are paired with hands-on coding sessions.
