

## EUI INTERDISCIPLINARY EXPERIMENTAL WORKING GROUP

**2020-2021**

The EUI Interdisciplinary (ECO-SPS) Experimental Working Group (IEWG) will continue its activities also in academic year 2020-2021 with a slightly different goal and format than in the previous years.

The working group will maintain its internal focus with the goal of offering a feedback platform for designs of any type of experiments, prior to implementing the experiment. This phase is crucial for any experimental research.

As to the format, those interested to be involved in the IEWG will receive an email during the first week of every month where we announce that we are open to suggestions to have a gathering. Through this email we thus solicit experimental designs to be presented in that month. We will then set a date depending on the preferences expressed.

Anyone interested to receive such a monthly email, should send a message to Claudia Fanti ([Claudia.Fanti@eui.eu](mailto:Claudia.Fanti@eui.eu)) with as subject "I am interested to receive such an email monthly", **by Monday 24<sup>th</sup> August**, at the latest.

Organisers: Klarita Gërzhani (SPS) and Alan Sule (ECO)
