European Research Council

Established by the European Commission

Funding Opportunities in the Social Sciences and Humanities

Dr Sebastian Winkler
Panel Coordinator
Unit B5 – Social Sciences and Humanities

EUI – MWP-ACO Conference, 8 February 2017

What is the ERC?

European Research Council

Established by the European Commission

The ERC supports excellence in frontier research through a bottom-up, individual-based, pan-European competition

Budget: € 13 billion (2014-2020) - 1.9 billion €/year
€ 7.5 billion (2007-2013) - 1.1 billion €/year

Legislation

- Scientific governance: independent Scientific Council with 22 members including the ERC President; full authority over funding strategy
- Support by the ERC Executive Agency
- Excellence as the only evaluation criterion

Strategy

- No predetermined subjects (bottom-up)
- Support of frontier research in all fields of science and humanities
- Support for the individual scientist – no networks!
- Global peer-review

ERC Structure

European Research Council

Established by the European Commission

The European Commission

- **Provides financing** through the EU framework programmes
- **Guarantees autonomy of the ERC**
- **Assures the integrity and accountability of the ERC**
- **Adopts annual work programmes** as established by the Scientific Council

The ERC Scientific Council

- **22 prominent researchers** proposed by an independent identification committee
- **Appointed by the Commission** (4 years, renewable once)
- **Establishes overall scientific strategy**; annual work programmes (incl. calls for proposals, evaluation criteria); peer review methodology; selection and accreditation of experts
- **Controls quality of operations and management**
- **Ensures communication with the scientific community**

The ERC Executive Agency

- **Executes annual work programme** as established by the Scientific Council
- **Implements calls for proposals** and provides information and support to applicants
- **Organises peer review evaluation**
- **Establishes and manages grant agreements**
- **Administers scientific and financial aspects** and follow-up of grant agreements
- **Carries out communications activities** and ensures information dissemination to ERC stakeholders

ERC Budget

Within the Horizon 2020 Framework Programme

European Research Council

Established by the European Commission

ERC Budget
€ 13 billion

ERC – structure of calls

Starting Grants

starters
(2-7 years after PhD)
up to € 1.5 Mio
for 5 years

Consolidator Grants

consolidators
(7-12 years after PhD)
up to € 2 Mio
for 5 years

Advanced Grants

track-record of
significant research
achievements in the
last 10 years
up to € 2.5 Mio
for 5 years

Proof-of-Concept

bridging gap between research - earliest
stage of marketable innovation
up to €150,000 for ERC grant holders

Creative Freedom to Individual PIs

ERC offers independence, recognition & visibility

- to work on a research topic of **own choice**, with a team of **own choice**
- to gain true **financial autonomy** for 5 years
- to negotiate with the host institution the **best conditions** of work
- to attract **top team members** (EU and non-EU) **and collaborators**
- to move with the grant to any place in EU / associated countries if necessary (**portability of grants**)
- **to attract additional funding and gain recognition**; ERC funding is a quality label
- **Open** to applicant PIs of any nationality

How are ERC research proposals evaluated?

Excellence is the sole evaluation criterion

European Research Council

Established by the European Commission

Excellence of the Research Project

- ✓ **Ground breaking nature**
- ✓ **Potential scientific impact**
- ✓ **Scientific Approach**

• **Excellence of the Principal Investigator**

- ✓ **Intellectual capacity**
- ✓ **Creativity**
- ✓ **Commitment**

Note: The excellence of the Host Institution (where PIs come from/where they go to) is not an evaluation criterion.

Scientific Domains (ERC WP2017)

European Research Council

Established by the European Commission

Life Sciences

- LS1 Molecular and Structural Biology and Biochemistry
- LS2 Genetics, Genomics, Bioinformatics and Systems Biology
- LS3 Cellular and Developmental Biology
- LS4 Physiology, Pathophysiology and Endocrinology
- LS5 Neurosciences and Neural Disorders
- LS6 Immunity and Infection
- LS7 Diagnostics, Therapies, Applied Medical Technology and Public Health
- LS8 Evolutionary, Population and Environmental Biology
- LS9 Applied Life Sciences and Non-Medical Biotechnology

Physical Sciences & Engineering

- PE1 Mathematics
- PE2 Fundamental Constituents of Matter
- PE3 Condensed Matter Physics
- PE4 Physical and Analytical Chemical Sciences
- PE5 Synthetic Chemistry and Materials
- PE6 Computer Science and Informatics
- PE7 Systems and Communication Engineering
- PE8 Products and Process Engineering
- PE9 Universe Sciences
- PE10 Earth System Science

Social Sciences and Humanities

- SH1 Individuals, Markets and Organisations
- SH2 Institutions, Values, Environment and Space
- SH3 The Social World, Diversity, Population
- SH4 The Human Mind and Its Complexity
- SH5 Cultures and Cultural Production
- SH6 The Study of the Human Past

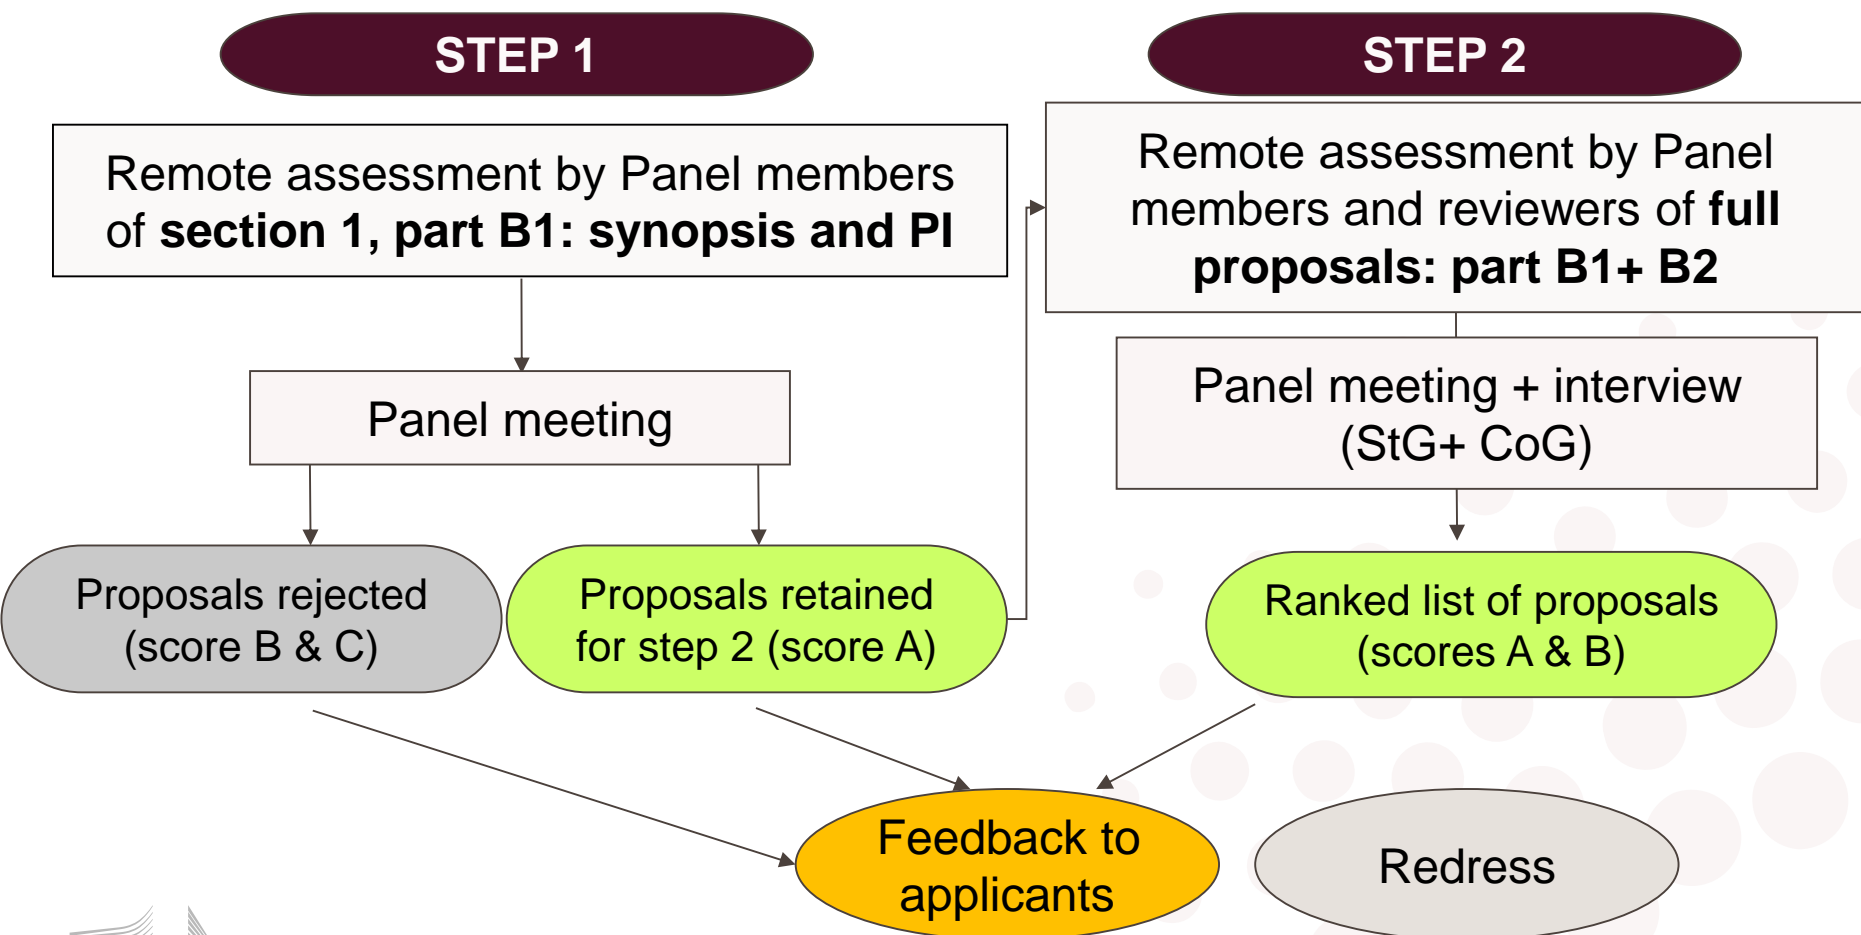

How are the proposals evaluated?

Single submission, but a two-step evaluation

European Research Council

Established by the European Commission

Priority to Young Scientists

+ 30 000 PhD and post-doc researchers working in ERC teams.

Two-thirds of ERC grants to early-stage Principal Investigators.

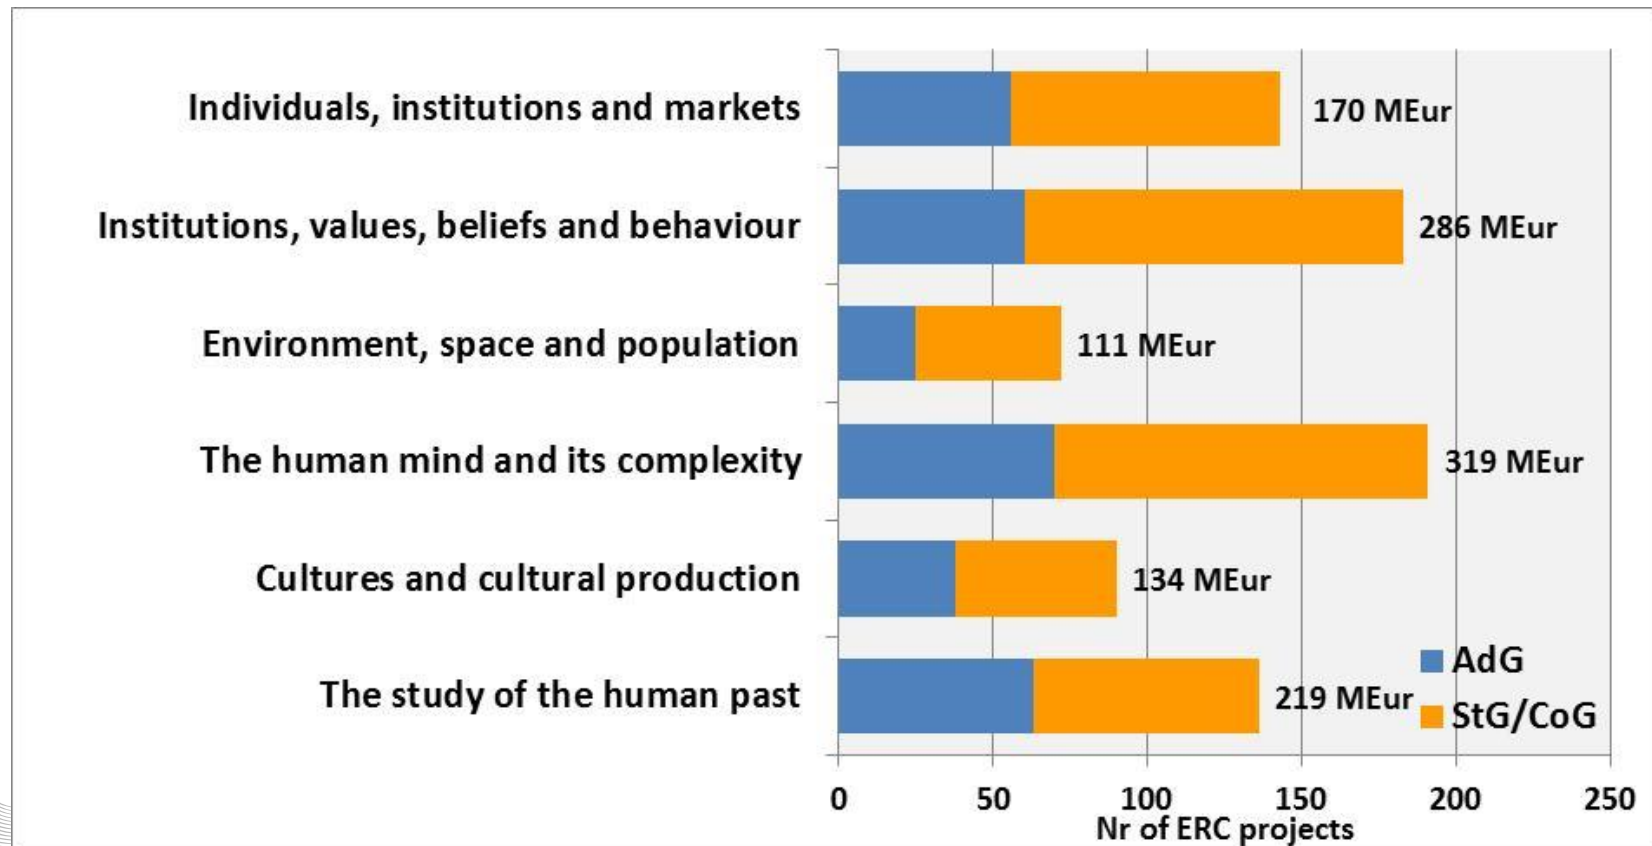

Reported team members (2015)
head count (1901 projects; almost 14,000 team members)

Funding Social Sciences and Humanities

- Over 800 projects funded in the SH domain 2007 - 2013
- Over 1.2 Billion Euro allocated to these projects

236 M€ in 2014
359 M€ in 2015

ERC-funded Research at the European University Institute

Questions to ask yourself as an applicant PI

European Research Council

Established by the European Commission

- Why is my proposed project important?
- Does it promise to go substantially beyond the state of the art?
- Is it timely? (Why wasn't it done in the past? Is it feasible now?)
- What's the risk? Is it justified by a substantial potential gain? Do I have a plan for managing the risk?
- Why am I the best/only person to carry it out?
- Am I able to work independently, and to manage a 5-year project with a substantial budget?
- Am I internationally competitive/visible as a researcher at my career stage and in my discipline?

Preparing an application

Hints and tips (Generalities I)

- **Register early**, get familiar with the system and templates and start filling in the forms
- A submitted proposal can be **revised until the call deadline** by submitting a new version and overwriting the previous one
- Follow the formatting rules and page limits
- Download and proof-read the proposal before submitting
- Make use of the **help tools and call documents** (Work Programme, Information for Applicants, Frequently asked questions) to prepare your proposal

Preparing an application

Hints and tips (Generalities II)

European Research Council

Established by the European Commission

- **Chose the right panel**
- **Talk with ERC PIs at your Host Institution**
- **Involve your Host Institution's grant office**
- **Talk to the National Contact Points**

Submission of Proposals

Differences in Part B1 and Part B2

In Step 1: **Panel members** (generalists, multidisciplinary approaches) see only Part B1 of your proposal: Prepare it accordingly!

- Pay attention to the **ground-breaking nature** of the research project – no incremental research. State-of-the-art is not enough – be specific how your proposal will make the difference.
- Know your field – what is the **state of play** and why are your idea and scientific approach **outstanding**?
- Only the extended Synopsis is read at Step 1: **concise and clear presentation** is crucial (evaluators are not all experts in the field)
- Outline of the **scientific approach** (feasibility)
- Show your **scientific independence** in your CV

Submission of Proposals

Differences in Part B1 and Part B2

European Research Council

Established by the European Commission

In Step 2: Both **Part B1 and B2** are sent to specialists around the world (**specialised external remote referees**)

- Fully elaborate your proposal
- Provide **sufficient detail** on methodology, work plan, selection of case studies etc. (15 pages)
- Check coherency of figures, **justify requested resources**
- Explain **involvement of team members**
- Provide alternative strategies to **mitigate risk**
- **Avoid unnessecary repetitions of Part B1 in Part B2**

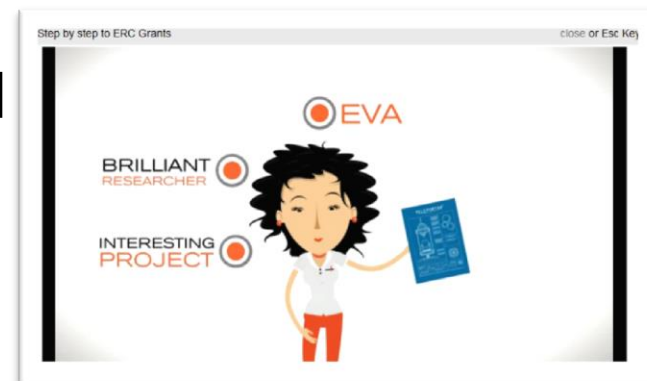

Some useful tools and links

ERC Funded Projects

The ERC operates according to an "investigator-driven", or "bottom-up", approach, allowing researchers to identify new opportunities in any field of research. Accordingly the portfolio of ERC funded projects spans a wide range of topics and research questions.

Since 2007, more than **4,500 projects** have been selected to receive ERC funding throughout the EU Member States and the associated countries. The ERC has received over **43,000 project proposals** for its calls.

You can use the menu on the left to search quickly and easy ERC funded projects.

Projects can be filtered according to: **Funding scheme**, **Research area (Panels/Domains)**, **Country of Host Institution** and/or **free keyword(s)**.

Information displayed is automatically updated through the information available on the **CORDIS** platform.

Please note that only funded projects, whose grant agreements have been signed, appear in this database. For this reason, the total number of projects in this database may differ from the figures provided in the statistics section which include also projects selected for funding whose grant agreements have not been signed yet.

For specific queries, please use this **contact form** and select the category "Web".

Menu allows
searching by

Evaluation Panels

Tweet

The selection of scientific and scholarly proposals for ERC funding is based on international peer review with excellence as the sole criterion. The ERC uses a typical panel-based system, in which panels of high-level scientists and/or scholars make recommendations for funding.

Domain and panel structure

The ERC panel structure consists of 25 panels.

The panels of each grant are grouped into three disciplinary domains that cover the entire spectrum of science, engineering and scholarship:

1. Social sciences and Humanities (SH)
2. Life sciences (LS)
3. Physical and Engineering Sciences (PE)

Research proposals of a multi and inter disciplinary nature are strongly encouraged throughout the ERC's schemes. Proposals of this type are evaluated by the ERC's regular panels with the appropriate external expertise.
