### **States, Societies and Crises across Time and Space**

#### **12<sup>th</sup> Max Weber Fellows June Conference**

**13-15 June 2018 Badia Fiesolana  
San Domenico di Fiesole**

Each year, the Max Weber June Conference presents an opportunity to enhance academic exchange and collaboration between different generations of Fellows. At a time of perceived global upheaval and crisis, we seek to bring together an eclectic group of scholars to discuss some of the major transformations that states and societies have undergone across time and space. The aim is to develop multidisciplinary perspectives on key current, past and likely future challenges faced by local, regional, national and transnational communities. These include, but are not limited to, issues related to income, employment, markets, finance, trade, education, health, mobility, migration, security, gender, sexuality, ethnicity, race, citizenship, religion, the workplace and the environment.

This year, we are pleased to welcome Professor Jürgen Osterhammel (University of Konstanz) and Professor Michael Ignatieff (Central European University) as keynote speakers.
