

OPEN ACCESS & CADMUS

An Open Access (OA) publication or dataset is immediately and freely available online, to read, download, copy, print, disseminate or search. As a publicly-funded institute, our aim is to increase the proportion of research publications and datasets in Open Access. The EUI Open Access Policy encourages its members to facilitate the dissemination of their published research by depositing it with Cadmus.

CADMUS

The EUI Research Repository, Cadmus, registers EUI members' academic publications and datasets produced during their time at the Institute and those based on research carried out here:

- 30,000+ records of which 13,700+ are Open Access
- 3,520 theses of which 1,570 are Open Access
- Open Access Video tutorials: bit.ly/cadmusplay
