A INTRODUCTION

1. Preamble

The European University Institute (EUI) is a postgraduate and post-doctoral research institute in the field of Social Sciences, established by a Convention dated 19 April 1972, ratified by the Member States of the European Community, with the aim of providing advanced academic training for doctoral researchers and of promoting research at the highest levels. The Convention setting up the EUI includes the “Protocol on the Privileges and Immunities of the EUI”.

The EUI Community numbers about 1,100 members. Researchers, academic and administrative staff are for the most part – though not exclusively – citizens of the Member States.

The EUI's headquarters are at the Badia Fiesolana, Via dei Roccettini 9, in San Domenico di Fiesole (near Florence, Italy).

For more information, please see the EUI's official website at www.eui.eu.

The mission of the Library is to provide excellent collections and information tools, through high quality services in the disciplines of Social Science and Humanities, with a particular emphasis on Europe as its natural focus, and as a background for a wider international approach. The Library continues to study and implement, when necessary, all important developments in Library and Information Sciences.

The EUI Library, which is the authorising officer, is looking for a supplier who can meet the expectations and needs of the Library with respect to periodicals delivery and who can provide a high quality service combined with an economically interesting offer.

This Tender is for the supply of academic periodicals covering the following subject areas, languages and types of publications:

- around **1300** academic titles, covering the subject areas of Economics, Law, History and Civilization, and Political and Social Sciences, in a variety of formats (print, electronic, CD/DVD and microforms).
- languages: **English, French, German, Italian, Spanish, Portuguese, Greek, and others**
- published commercially, generally excluding government and international/agency publications, newspapers, and ‘grey’ publications.

Analysis of the 2016 periodicals expenditure indicates that the EUI Library has spent approximately **€450.000** during this period.

It must be stressed that whilst the figures above are genuinely believed to be accurate, the total number of periodicals and the budget cannot be guaranteed and this data is thus provided as an indication.

- The tender will result in a multiple framework contract in cascade, divided into lots.
- A tenderer may apply for one or more lots, according to the specifications in Section F. Specifications must be applied to every lot.

- When submitting the tender, the economic offer must be presented separately from all other information. When preparing information relating to price, it must be clear to which lot it refers.
- The terms used in these specifications are defined in Section E of this document.

2. Technical offer information

Suppliers must answer all questions on the *Technical Offer* form in Annex 4.

3. Economic offer information

3.1 Base for price

Suppliers must fill out the form corresponding to Annex 5 according to the Specifications required (Section C).

Suppliers are requested to offer a price based on the "publisher's list price" (See Section E - Terminology).

The supplier must define a percentage of the list price they will charge the EUI Library - for example, an offer at "100%" means the EUI Library will pay the publisher's list price. An offer of "105%" means the supplier will apply a 5% commission on the list price of the supplied subscriptions. This percentage rate is for an all-inclusive price - no extra charges for handling, delivery etc. will be accepted.

N.B. The Library subscribes to several publishers' journal packages, some of which are negotiated through consortial agreements. These journal packages are excluded from this tender. The supplier must take into account that particular discounts are applicable to the print version of titles belonging to consortial agreements (e.g. Deep Discount Price, price cap).

The Library will supply a separate list of subscribed packages in Section H.

4. Exclusion, selection and award criteria

4.1 Exclusion criteria

Tenderers shall not be in any of the situations which are grounds for exclusion as listed in Annex 3 *Declaration on Honour*.

4.2 Selection criteria

The Library needs an experienced supplier focused on the high quality of the service. In order to be eligible for the tender procedure, companies must possess all the following requirements:

- A minimum of five years in business. Please provide evidence that your company has existed for at least five years.

- Declaration that, over the previous three years (2014-2015-2016), the company's overall turnover, excluding VAT, was not lower than €500.000 (five hundred thousand) per year.
- Provide evidence of having obtained the ISO 9001 certificate.
- Provide evidence of at least five-years' experience in dealing with international academic and research libraries.
- Proficiency in English of your customer service staff dealing with this contract is essential. Please provide evidence of this (certificates, stated experience, etc.).

4.3 Award criteria

"Award criteria" take into account both the Technical and Economic Offers submitted. The Contract will be awarded to the Tenderer submitting the bid that offers the best value for money.

Award criteria are specified in Section D. A summary is given in Section D.3.

The award criteria will be the basis for the ranking of suppliers in the framework contract.

5. The assessment process

5.1 Lots

Offers will be assessed on a lot-by-lot basis (a Supplier may have a high rating for one lot and a lower rating for another lot). Lots are specified in Section F.

5.2 Score

Maximum score is 100, composed in the following way:

Technical offer:	Maximum Score of 80
Economic offer:	Maximum Score of 20

See Section D (AWARD CRITERIA) for details.

B TECHNICAL SPECIFICATION FOR THE SUPPLY OF PERIODICALS (SERIALS AND JOURNALS)

1. Ordering and supply

1.1 New orders

Replies to quotation requests or other requests must be provided by the Supplier within one week.

Orders for new subscriptions may be placed through the Supplier's Management System or by e-mail.

Acknowledgement of order receipt must be sent by the Supplier within two working days.

Orders for new subscriptions must be processed by the Supplier within three working days of receipt.

The Supplier must notify the Library of any queries relating to new orders within five working days.

Orders for new subscriptions marked as URGENT must be processed by the Supplier within one working day of receipt.

Confirmation of new orders must be sent to the Library within five working days and must include the information listed below:

- Title
- ISSN / eISSN
- Library's purchase order number
- Supplier's subscription number
- Start date and/or volume and issue
- Price
- Discounts
- Handling charges

New orders will be offered to the Supplier who is ranked first in the related lot. If the first Supplier is not available or does not respond within the indicated time period, the orders will be sent to the Supplier ranked second. The same rule will be applied in cascade.

1.2 Renewals

All subscriptions should be based on the calendar year (1st January-31st December), regardless of the renewal date with the publisher.

A holding list for all subscriptions must be sent by email or made available online by the supplier no later than 31 May each year (by mail or online), as specified in Bibliographic services and management information – Section B2.3.

The Library will then indicate amendments, cancellations, additions, if necessary. Otherwise the subscriptions are automatically renewed.

The Library's Collection Development Policy foresees an ever increasing move to e-only subscriptions. Decisions are based on some of the Library's established criteria such as post-cancellation access offered by the Publisher.

The Supplier must accept the Library's renewal instructions until 31 October each year. In special circumstances the Library reserves the right to postpone renewal.

The Supplier must make renewal payments to publishers in good time to guarantee a regular supply service.

The Supplier must advise the Library if the price increase is more than 15% for periodicals with an annual price of € 200 or more.

1.3 Cancellations

The Supplier must accept annual cancellation instructions until 31 October each year. In special circumstances the Library reserves the right to postpone cancellation informing the Supplier as soon as possible.

1.4 E-journals

If available, the Supplier will offer access to electronic versions of journals when required.

The Supplier will notify the Library of any new electronic versions of existing subscriptions and will inform the Library accordingly of the different access options offered by the publisher e.g. IP access and part of e-packages, purchase options, format and pricing.

The Supplier must assist in the setting up of the electronic subscription. This includes supplying the Library with: licensing details (such as post-cancellation access), details on start date of access, the publisher subscription number, name of the online platform and URL of the new subscription title.

In the case of new electronic subscriptions, the Supplier must keep track of the online set-up process with the publisher until electronic access has been activated and the Library is informed accordingly.

Changes in titles which are taken over by other publishers and modification of platforms must be communicated to the Library.

The Supplier must provide ongoing help with troubleshooting on any access problems that may occur with e-journal subscriptions.

1.5 Non-print media

The Supplier will supply on request non-print medium such as CDs, DVDs, microforms.

Network licences, where required, will be supplied.

Where an online version of a non-print media becomes available the Supplier will assist the Library with the transition from one medium to another.

1.6 Back issues

The Supplier, on request, will provide copies of back issues of periodicals against purchase orders, whether or not a current subscription is held by the Library.

The Supplier will provide information on the availability of back issues.

1.7 Delivery

Where issues are dispatched direct from publishers, the supplier will ensure that they are sent to the Library as soon as possible after publication and in any case within one month.

Receipt by the Library should not be later than four weeks from publication date.

1.8 Claims

The Library will send claims directly from its Integrated Library System in EDI X12 format.

The EUI Library expects immediate notification of receipt of claims.

Replies should be sent by e-mail to a named Library staff member with a copy of the original claim.

The Supplier will process claims sent by the Library within two working days of receipt.

The Supplier will send publishers' responses to claims to the Library within one working day. In any case the Library expects to be informed within five working days from the receipt of the claim.

Claims marked as URGENT will be processed and a response given within one working day of receipt.

If claimed issues are unobtainable there must be a definitive reply within two months from the claim date, informing the Library that the publication is suspended, ceased, or that the order is considered cancelled.

There must be no invoicing of titles which are suspended or are not arriving.

No information about claims should appear on invoices.

The Supplier's Subscription Management System should contain updated information about the status of claims. The Platform should always be up to date and should be automatically updated with any relevant information.

1.9 Invoicing

The Supplier must supply the Library with original print invoices. In addition, the Supplier should make available for download via ftp, electronic invoices according to the EDI X12 format supported by the Integrated Library System.

Original invoices may be sent on paper by post or exclusively in PDF format by email sent to a specified email address. Upon request, the Supplier must be able to send the original invoice exclusively in PDF format by e-mail.

Electronic invoices must correspond to the original invoice delivered, especially regarding:

- Invoice number and invoice date
- Number of invoiced items
- Total price

The EUI shall make payment within 60 days of receipt of invoice. Invoices for serials (continuations) will be paid after the arrival of the relevant volume.

The currency of payment will be in Euros

An incorrectly prepared invoice will not be paid until a corrected version has been provided. The incorrect invoice should be cleared by a credit note and a correct invoice should be delivered.

Terms unilaterally included in invoices by the Supplier are not binding on the EUI, even when publishers have applied them to the Supplier.

Invoices should list only subscription orders that are effectively to be paid. Any other information (e.g. on publication, status of the order) should be omitted.

Invoices must always specify:

- The client address and the name of the library as specified on the purchase order
- Library's purchase order number
- Bibliographic description including title, ISSN / eISSN, frequency and format (e.g. print, online)
- Coverage period of subscriptions or volume/number of the invoiced title
- Subscription online access option (e.g. site-wide)
- The Publisher's list prices for all items in native currency and the total price
- The exchange rate applied
- VAT rate applied and mention of EUI's VAT exemption when applicable
- Supplier subscription number
- Supplier's bank details and VAT number

2. Services

2.1 Quality and Customer service

The Library requires an experienced supplier, who can provide a comprehensive and high quality subscription service.

The Supplier will allocate one named Customer Account Manager to take charge of the Library's account.

The Supplier will provide the Library with the name of a permanent staff member to whom the Library can refer if the Customer Account Manager is unavailable.

Meetings with a representative from the Customer Service team and with a member of the Sales team will be held at the Library's site, at intervals of not more than one year.

On request of the Library the Supplier will provide training sessions on the use of its own Platform.

2.2 Communication policy

All communications will be in English, unless mutually agreed otherwise.

Responses to e-mail correspondence will be given within three working days. If no substantive response can be made within this time a holding reply will be sent.

If a holding reply has been sent initially, a follow up message with substantive reply will be made within five working days of the original request.

Responses by e-mail will include the original message from the Library.

2.3 Bibliographic services and management information

The Supplier will provide the Library with secure online access to its Subscription Management System. In particular, this platform should provide complete title information including bibliographic data and details on prices, formats, access options, journal packages, invoices and license information.

The Library should be able to manage via this online platform the entire subscription process, from title selection and ordering to checking of delivery status of volumes, claims and online access activation. An online renewal tool should also be offered on the platform.

The Library requires the possibility to retrieve the following title periodical subsets from the Subscription Management System:

- a holdings list of all the Library's subscriptions
- all the Library's subscriptions in a particular subject category
- all the Library's subscriptions listed under a particular Library fund code

- lists of cancelled subscriptions
- lists of all subscriptions from a particular publisher
- lists of titles on order

The Library requires regular management information reports and service performance data, including expenditure reports. The Library is also interested in e-journal usage statistics reports.

All reports should include: titles, ISSN / eISSN, supplier's reference number, the Library's order number and, when necessary, subject areas, current list price.

- Prompt reports must be sent by e-mail with general information and updates concerning:
 - issues delayed
 - title change
 - frequency change
 - publisher change
 - ceased title
- Holdings lists (Excel file) must be sent to the Library each year by the end of May or be made available through the Subscription Management System.
- On request and/or in agreement with the Supplier, reports should be sent at regular intervals or on specific dates to the Library or made available via the Subscription Management System.

2.4 Journal packages

The Library subscribes to several journal packages, some of which are channelled through consortial agreements. A list of subscribed packages is available in this document (Section H).

2.5 IT requirements

Any service should be compatible with EUI software systems. It must be made clear if a modification is required, or likely to be required, to achieve compatibility with EUI software systems. If necessary, further information on EUI systems can be requested from the Library prior to submitting the offer.

The Library Information System currently in use is Symphony, a product of SirsiDynix.

The Supplier should implement appropriate public standard formats, particularly EDI X12.

2.6 Transfer arrangements

The Supplier will assist the Library in the transfer of subscriptions from the previous supplier. The Supplier will make clear to the publisher, within one month from the start of the contract, that the orders are transferred from another agent and are not new subscriptions. The supplier subscription reference numbers should be provided in order to be uploaded to the Library's automated management system.

2.7 Expiry of contract

The Supplier will assist the Library in transferring subscriptions to another company at the end of the contract or if the contract is terminated early owing to poor performance or liquidation of the company.

The Supplier will take over the claiming of any outstanding issues still awaited from the publisher, which have already been paid.

2.8 Service levels in relation to Publisher

The Library understands that some aspects of the service will be beyond the direct control of the Supplier including:

- time taken for publishers to respond to queries
- time taken for publishers to announce bibliographic changes
- the percentage of periodicals issues requiring to be claimed from the publishers
- the percentage of missing issues available when claimed from the publishers
- the time taken for issues to arrive from the publishers

No invoices / renewal notices from publishers should be sent to the Library.

Although no numerical targets have been set for these requirements the Library will expect the Supplier to work proactively with publishers and seek commitment to meeting required service levels. Where a particular publisher or group of publishers consistently causes the Library problems, the Supplier should provide on request details of the steps they have taken to improve the service given by the publishers.

The Library will monitor the service provided by the Supplier and will notify the Supplier, in writing, of any areas where performance is deemed to be unsatisfactory.

2.9 Contract monitoring

Review meetings between the Library staff and the Supplier will be held at least once every 12 months.

2.10 Defaults and penalties

- Failure to respond to information requests will lead to new orders being diverted elsewhere.
- Failure to deliver as specified may lead to order cancellations.
- Failure to invoice as specified may lead to late or contested payment.

Beyond these "penalties" which arise from normal operation there is a system of default.

Any failure to deliver as specified, required or agreed, or according to normal business or legal standards, may be regarded as a default (See B1.4; B1.7).

Defaults may be recorded by the Client. They will be classified as 'minor' or 'major' defaults. Any default not included in 'major' defaults (see below) will be considered as 'minor'.

The **main categories of default** under this specification are services, facilities, pricing and performance standards according to the Technical Specifications and the Supplier's Technical Offer.

These include.

- Late or no delivery of an item, when delivery is proven elsewhere (See B1.4; B1.7).
- Late or no online update when the item is proven elsewhere (See B1.4; B1.7).
- Failure to provide online access (See B1.4).
- Delivery of incorrect item (See B1.7).
- Errors in delivery documentation (See B1.7; B1.9).
- Failure to implement claims procedures as required and described (See B1.8).
- Communications not up to required standards (See B1.1-9; B2.2).
- Provision of incorrect information (See B1.1-9).
- Failure to present invoices as required (See B1.9).
- Pricing/charging not in agreement with the contract.
- Failure to provide customer service (See B2.1).
- Failure to provide service performance data and management information (See B2.3).
- Failure to provide IT services (See B2.5).

Major defaults apply according to the Technical Specifications and the Supplier's Technical Offer.

These include:

- Failure to provide customer service and communications (See B2.1; B2.2).
- Failure to provide IT services (See B2.5).
- Failure to present invoices (See B1.9).
- Failure to deliver a significant proportion of the titles to which the Client subscribes.
- Significant failures on pricing.
- Persistent minor defaults in an area of ordering, supply or service following a performance warning from the Client.

A points system will apply with minor defaults valued at 10 points and major defaults at 50 points.

Following the recording of five minor defaults, or one major default, the Client shall inform the Supplier with a performance warning and indicate areas for improvement.

If a Supplier has accumulated 100 default points in any twelve month period, and these relate to more than 2% of all transactions with the Supplier, or relate to major defaults, the Client may issue a penalty notice sent in writing to the Supplier. The Supplier will be informed in such case beforehand. All invoices relating to transactions from the date of the first recorded default to the last recorded default will have a 1% discount. A credit note must be issued within ten working days of notice by the Client.

If subsequently the total of 200 default points is reached then the discount will be 2.5%, 300 default points 5%, 400 default points 7.5% and so on.

The Client reserves the right to transfer future orders/contracts to alternative suppliers following the award of 200 default points in any twelve month period. The Client reserves the right to terminate existing contracts without further notice if 300 default points are awarded in any twelve months.

In this case the orders will be transferred to the Supplier ranked second. The same rule will be applied in cascade.

C ECONOMIC SPECIFICATION

1. Economic Offer

1.1. Pricing formula

State the pricing policy in this format

Publishers list price @ xxx%

(For example, "Publishers list [price@95%](#)", or "Publishers list [price@105%](#)")

The rate xxx% should take into account all discounts and all costs, up to and including delivery to the EUI. This rate will apply to all orders and contracts.
Offers submitted in other formats will not be accepted.

1.2. Pricing policies

- The main base of the pricing, used for all material published or routinely distributed, is the **publisher's list price**.
- The pricing formula will be followed in all orders/contracts. However, such a formula represents the **maximum** acceptable price: lower rates may be offered by the Supplier, if agreed, for specific orders/contracts.
- The formulae based on fixed percentages of publisher's list price will not be reviewed. (The publisher's list prices themselves may of course change.)

D AWARD CRITERIA

1. Technical offer award criteria

1.1 Score for technical offer

Maximum Score = 80

N.B.: Decimal fractions are allowed (e.g. 0, 5)

1.2 Technical offer award criteria

- Ordering and supplying (B.1): Score 50
- Services (B.2): Score 30

2. Economic offer award criteria

2.1 Score for economic offer

Maximum score = 20

- Price should be offered according to Introduction (A) and Economic Specification (C)
- The economic offer will be scored according to the following formula:

Score	=	$\frac{\text{MinPrice}}{\text{Price}}$	x	MaxScore
-------	---	--	---	----------

Where:

Price = The percentage value of the price offered by the individual tenderer.

MaxScore = The maximum score assigned.

MinPrice = Lowest percentage value of the price offered in the tendered bids.

N.B. The first three digits after the decimal point will be calculated

e.g.:

- Economic offer for the assessed tender = price@105%

- MinPrice = price@102%

- MaxScore = 20

Score	=	$\frac{102}{105}$	x	20	=	19.43
-------	---	-------------------	---	----	---	-------

3. Summary of award criteria

Offer	Feature	Score
Technical	Ordering and supplying (B1)	50
	B1.1 New orders	8
	B1.2 Renewals	7
	B1.4 E-journals	10
	B1.5 Non-print media	1
	B1.6 Back issues	2
	B1.7 Delivery	4
	B1.8 Claims	8
	B1.9 Invoicing	10
	Services (B2)	30
	B2.1 Quality and Customer Service	8
	B2.2 Communication policy	3
	B2.3 Bibliographic services and management information	9
	B2.4 Journal packages	2
	B2.5 IT requirements	6
	B2.6 Transfer arrangements	2
	Total	80
Economic	Price (C1)	20
	Total	20
	Grand Total (Technical + Economic)	100

E TERMINOLOGY

Authorising Officer	refers in practice to the head of service in charge of the launching and awarding of the contract within the limits of the powers of signature available to him/her.
Best value for money Client	evaluation according to the best quality/price ratio. (note the capital “C”) - Director of the Library of the European University Institute, or an official authorized by the Director. 'Authorized officials' will be identified to Suppliers with a description of their roles.
Contracting authority	refers in practice to the head of service in charge of the launching and awarding of the contract within the limits of the powers of signature available to him/her.
Credit note	a note providing refund, valid against present or future invoices from the Supplier, without restriction. A “credit note” which takes the form of an extension of a specific subscription, or which is valid only for limited purposes, is not normally acceptable.
EUI	European University Institute.
Integrated Library System	EUI Library Integrated System, Symphony (SirsiDynix).
Journal	a publication in print or non-print form issued in successive parts, usually having numerical or chronological designations and intended to be continued indefinitely which is charged on a pre-paid, usually annual, subscription basis, together with any back issues.
Library (the Library)	the Library of the European University Institute.
Non-print media	CDs, DVDs and microforms.
Periodical	includes journals and serials.
Publisher's list price	the retail price advertised by the publisher or distributor, or the price printed on, or in, the item, whichever is the lower.
Serial	a publication in print or non-print form issued in successive parts, usually having numerical or chronological designations and intended to be continued indefinitely normally invoiced on arrival of the volume.
Specification	set of requirements related to each Lot and each type of supply.

Supplier

the tenderer to whom the contract has been awarded.

Working days

are Monday-Friday, excluding recognised national public holidays in the country of the Supplier or Client, as relevant to the case. The passing of “one working day” is from the time of initiation on the first day to the same time on the next working day.

F LOTS

- Lot 1. Periodicals published in the English language (about 56% of the titles)
- Lot 2. Periodicals published in the French language (about 17%)
- Lot 3. Periodicals published in the German and Dutch languages (about 12%), Eastern European languages (1.50%) and Scandinavian languages (1.50%)
- Lot 4. Periodicals published in the Italian, Spanish, Portuguese and Greek languages (about 12%).

N.B.: Tenderers who submit an offer for lots 3 or 4 should include periodicals published in all the listed languages.

- N.B.**
1. Percentages refer to subscriptions in 2016.
 2. The publications of the European Union (OPOCE – Luxembourg) and the Council of Europe (Strasbourg) are excluded from the tender; government and international/agency publications, newspapers, and ‘grey’ publications are generally excluded from the tender.
 3. The client reserves the right exceptionally to place out-of-print, rare, or particular titles/volumes with a supplier of its choice.
