

The EUI has an open vacancy for a

Research Assistant in the

Robert Schuman Centre for Advanced Studies

Florence, 18 January 2023

Reference: V/RA/RSC/1/2023

Who we are

The **European University Institute** (EUI) at a glance:

- an **international organisation** set up in 1972;
- a research university focusing exclusively on **postgraduate**, **doctoral** and **post-doctoral studies**, and advanced research;
- located in the hills overlooking the city of Florence, Italy.

The Institute also hosts the Historical Archives of the European Union.

The Robert Schuman Centre for Advanced Studies (RSCAS) is an inter-disciplinary research centre at the heart of the European University Institute (EUI). It was established in 1992 to complement the four EUI disciplinary departments (Economics, History and Civilization, Law, Political and Social Sciences) with the aim to be involved in both basic and policy research, collaborate with other centres of excellence in Europe, provide opportunities for young scholars and promote dialogue with the world of practice. The Centre's goal is to maintain an environment and support structure that fosters intellectual curiosity and excellent research. The research agenda of the Centre is currently guided by three major themes: Integration, Governance and Democracy; Regulating Markets and Governing Money; and 21st Century World Politics and Europe.

To be agreed with Project Director, salary indication based on place of work
Florence, Italy

About the project

Project Director

Prof. Bernard Hoekman

Project details

ASTAR - The project examines how trade and related policies are associated with farmers' share of the global food dollar (GFD) as an important component to examine structural transformation of global value chains. In this context, the project considers the linkages between multiple open-source data investments by the USDA ERS by combining information on trade, agricultural production, and value chains, adding to the global food dollar (GFD) and Ag-FEEDs program. The project also incorporates trade data into Ag-FEEDs to examine farm value shares and trade.

Job description

The research assistant will provide research assistance to the Director of the project, focusing on data collection, database organization and data analyses. Main tasks include:

- Collecting and organising trade and policy observational data;
- Complete tabular and graphical statistical analyses;
- Editing working papers.

Qualifications and experience

Qualifications and Experience

Essential:

- BA in Economics;
- Demonstrated deep knowledge of STATA and R;
- Proven analytical and quantitative skills;
- Proactivity and ability to work autonomously as part of a multinational team in an international & research environment gathered through previous experience.

Desirable:

- Proven research experience with large datasets;
- Demonstrated experience with project management tasks;
- Experience in studying or working in interdisciplinary teams

Languages

Excellent level of written and spoken English (CEFR Level C1 and above) is essential. Knowledge of other languages constitutes an advantage.
