

Cyber Security Awareness training

2020-2021

EUI Data Security Officer laura.Biagiotti@eui.eu

What is Cyber Security Awareness Training?

Cybercriminals take advantage of users' trust, fear, greed, and plain old human errors.

Security awareness training teaches users to spot phishing, avoid risks online, and use good cyber-hygiene practices at work and at home.

WHY DOES IT MATTER?

- » The world is getting more digital
 - *Business, banking, healthcare, etc. is all online*
- » Crime is following the same trend
 - *Worldwide ransomware attacks*
 - *High-profile hacks in the news*
 - *Phishing emails are more sophisticated each day*
- » New privacy laws and regulations are being enacted
 - *Many sectors require training for compliance*

WHY SHOULD USER CARE?

- » Because the online world is so interconnected, everyone is a target
- » If just one of your accounts gets breached, criminals can use it to breach others
- » Criminals may target personal accounts and data to breach corporate ones, and vice versa
- » Fraud and identity theft doesn't just affect an individual; it can affect user's your family, friends, coworkers, and business

WHAT KINDS OF THREATS ARE THERE?

- » Phishing and spear-phishing attacks
- » Business email compromise
- » Social engineering scams
- » Common malware and ransomware
- » Fake websites that steal data or infect devices
- » And much more

How does Security Awareness Training help individuals?

It gives you the know-how to stay safe from cybercrime...

AT EUI

- » Prevent intrusion in the EUI infrastructure
- » Stop business email compromise
- » Keep critical business data safe

AT PERSONAL LEVEL

- » Protect your identity and personal data from theft and fraud
- » Secure your devices against viruses and malware
- » Keep yourself and your family safe from hackers and spies

eLearning course

- **Module: Phishing**
 - What is phishing?
 - How does it work?
 - How to protect yourself?
- **Module: Malware**
 - What is malware?
 - How is malware spread?
 - How to protect from malware?
- **Module: Social Networks**
 - What threats do social networks pose to individuals and companies?
 - What is the extent of danger of social hacking?
 - How do you defend yourself from the threats on social networks?

Modules: Phishing, Malware, Social Networks

eLearning course

Module structure

- Short introductory video
- Slide presentation – the course content
- Assessment- Few questions to review key points
(the feedback is given only to the user)

Module duration –from 20 to 30 minutes

eLearning course: delivery methods

The awareness training can be delivered through the two e-learning platforms used at EUI depending on the category of user you are belonging:

- The EUI eLearning: BrightSpace platform; it is mainly used by the Academic community
- The internal eLearning platform (Moodle); it is mainly used by administrative staff members (e.g. training on physical Safe and Security measures).
