

Article Publishing Guidelines

Articles submitted to *Transnational Times* (TNT) should meet the following standards:

1. **Accuracy and factual integrity**

Articles should be based on accurate information, facts, and sources to the best of the author's knowledge. Factual claims should be verifiable where appropriate.

2. **Originality and attribution**

Authors must ensure that their submissions are their own work. Ideas, quotations, data, and other material taken from external sources must be appropriately acknowledged.

3. **Fairness and responsible reporting**

Articles should present arguments and information fairly and avoid deliberately misleading, discriminatory, abusive, or defamatory content. Criticism of individuals, institutions, or ideas is welcome, provided that it is expressed responsibly and in good faith.

4. **Freedom of expression**

TNT supports open debate and the expression of diverse and controversial views. Freedom of expression does not, however, exempt contributions from the standards of accuracy, legality, and responsible conduct set out in these guidelines.

5. **Privacy and personal data**

Authors should respect the privacy of individuals and avoid publishing personal information that is not necessary for the purpose of the article. TNT follows the applicable [EUI Data Protection Policy](#).

6. **Conflicts of interest**

Authors should disclose any personal, professional, or financial interests that could reasonably be perceived as relevant to their contribution.

7. **Editorial review**

Every submission is reviewed by a member of the editorial team. The Editors-in-Chief retain final responsibility for editorial decisions and may request revisions or decline publication where a submission does not meet these guidelines.

TNT will operate in accordance with the [EUI Code of Ethics in Academic Conduct and Research](#), the [EUI Data Protection Policy](#) and the [Code of Practice on Freedom of Expression](#).

TNT reserves the right to edit submissions for clarity, accuracy, length, style, and compliance with these guidelines.
