- The control room is manned by both civilian personnel and security guards: civilian staff are on duty from Monday to Friday from 8 am to 5 pm, while security guards from 5 pm to 8 am and during weekends and EUI closures.
- The emergency number of the EUI (055 4685499) is active in the control room 24/7.
- Control room operators are trained in emergency procedures, and are able to provide an adequate response for any kind of safety and security issues: operating instructions, constantly updated and improved, are available in the **VADEMECUM FOR CONTROL ROOM OPERATORS**.
- Security guards regularly patrol EUI property every day of the week from 10 pm to 6 am, especially at weekends and at Villa Salviati, where the EU Historical Archives are located (2 additional guard tours are scheduled here).

3. Building Managers

Building managers play a key role for the security management of the campus: during office hours (see above) they provide an essential service, actively cooperating to the monitoring of control and security systems within the buildings of the EUI.

2. Off Hours access

Outside office hours (see table above) and/or in case of seats that do not have a Front Desk (Villa Malafrasca, Villa Paola, Villa Sanfelice, Villa Raimondi, Villino, Casale), people can access or leave EUI buildings only if they are authorized* EUI members, and in any case only using their EUI ID card:

In such cases, in the interest of safety and security, please follow these instructions when entering or leaving EUI buildings:

- To enter or leave swipe your EUI ID Card in the reader next to the door;
- To prevent the alarm going off wait until you hear a 'beep' before opening the door and do not leave it open longer than necessary;
- In an emergency use the panic button next to the door - this will set off the alarm and open the door;
- If your EUI ID Card does not work or you need help please call the control room emergency number: [+39] 055 4685 999- an operator is on duty 24 hours a day 7 days a week.

Please take note of the following:

- doors are alarmed;
- doors fitted with access control have no handles and can therefore be opened only by swiping your EUI ID card in the reader when entering or leaving through these access points;
- anti-panic doors are alarmed and therefore, to avoid sounding the alarm, you must swipe your EUI ID card in the reader when entering or leaving through these access points.
