#### **Our Units**

The <u>Budget and Financial Affairs Service</u> (BFA) plays a crucial role in ensuring the effective financial management of the EUI, supporting top management in strategic budgetary decisions. It actively contributes to the success of the academic units, enabling them to achieve their institutional goals in teaching and research.

BFA oversees the entire budgetary cycle—from preparing and implementing the annual draft budget to ensuring compliance with financial regulations. It promotes sound financial management by driving simplification initiatives and reinforcing accountability across the Institute.

The BFA supports all administrative and academic units in implementing the budget and, within the limits of its remit, manages the funds of the Institute's structural budget and those funds derived from external sources. Additionally, it is responsible for calculating and paying salaries, pensions, and financial entitlements for all EUI contract holders.

The <u>Accounting Service</u> (ACC) provides internal and external stakeholders with qualitative and quantitative financial information used for decision-making processes and for accountability. It keeps, prepares and presents the EUI's annual accounts in accordance with the financial rules and within the applicable accounting and financial reporting framework. It establishes and validates the accounting systems, and when necessary, validates systems set by the authorizing officers or those used to provide or substantiate financial and accounting information.

The Service is responsible for effective treasury management, ensuring the proper execution of payments, revenue collection, and the recovery of amounts deemed receivable. Additionally, it functions as the Secretariat for the Supervisory Board of the Pension Reserve Fund. By providing transparent reports on the use of financial resources, the Service supports the administration's broader goals, helping to build trust among external stakeholders in the management of public funds and facilitating the potential to attract additional financial resources.
